ARPA-E Project: NEXTCAR

Step 1

Download Python

- ### Windows ✓
    - https://www.python.org/downloads/windows/

- ### Mac
    - https://www.python.org/downloads/mac-osx/

Step 2

Download Erlang

- ### Windows ✓
    - https://www.erlang.org/downloads

- ### Mac, Homebrew
    - From terminal, brew install erlang

- ### Mac, MacPorts
    - From terminal, port install erlang

■ Ubuntu/Debian

- From terminal, apt-get install erlang

■ Fedora

- From terminal, yum install erlang

Step 3

Download RabbitMQ

■ General ✓

- https://www.rabbitmq.com/download.html

Step 4

Install Dependent Libraries

Libraries include:: pika, numpy, scipy, matplotlib,

■ From terminal ✓

- pip install pika
- pip install numpy
- pip install scipy
- pip install matplotlib

■ If pip errors occur, reinstalling Python can solve issues. Google and StackOverflow are your friend.

Step 5

Learn RabbitMQ

■ Tutorials

- https://www.rabbitmq.com/getstarted.html
